Office Action Summary	Application No. 10/510,293	Applicant(s) HELMNER, ANDERS	
	Examiner Charles A. Fox	Art Unit 3652	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 March 2010.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 61- 64 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claim 61 it is not clear if applicant is claiming the intermediate conveying assembly is mounted within the aircraft or not. The word "disposed " is ambiguous at best in terms of the structure of the device. The claim as written can mean the intermediate conveyor is mounted in the aircraft and extends from the aircraft, or that it is ground based and extends into the aircraft. The later is how the invention is disclosed in the specification, Other wise the transverse conveyor would not be connected to the tarmac conveyor as shown and disclosed. Clarification is required.

Regarding claim 62 it is unclear which conveyor is length adjustable. In claim 61 two conveyors are presented, labeling the extendable conveyor as either the transverse or longitudinal as appropriate will render this rejection moot provided it is in agreement with the specification.

Regarding claim 64 it is not clear if the system encompasses the tarmac conveyor or not as only functional language is presented regarding the relationship between the system and the ground conveyor. Writing the claim such that it is clear that the system comprises a tarmac conveyor will render this rejection moot.

Response to Amendment

The amendments to the claims filed on March 17, 2010 have been entered into the record. It is noted the claims as originally filed had a numbering error which was corrected with an additional filing of properly numbered claims also on the same date.

Allowable Subject Matter

Claims 61-64 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The closest prior art of Fenner teaches a similar device, but without the pivotal connection between the transverse and longitudinal conveyors. Once the 35 USC 112 rejections are addressed the application will be in condition for allowance. Amendments after final will be considered if they do not add additional structure other than the clarification required to render the current rejections moot.

Response to Arguments

Applicant's arguments with respect to claims 61-64 have been considered but are moot in view of the new ground(s) of rejection. All previous claims were cancelled in the pending amendment and new claims presented.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3652

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
